## SHEFFIELD FURNITURE

CLOCKWISE FROM FAR RIGHT:

Rodríguez noted the juxtaposition of a reclaimed-wood dining table and sleek, white-leather chairs. She stopped to admire the lines of a Stickley chair, enjoying its Art Deco feel. She observed that a bright fabric selection "made a striped settee pop."

*"I like the reflectiveness of this sconce's background. It would look great in a hallway or bedroom."*

## ANNAPOLIS LIGHTING

FAR LEFT TO RIGHT:

A Niermann Weeks sconce caught Rodríguez's eye. "I love that they are a local company," she said. She felt a crystal table lamp from Ralph Lauren would be "a sexy addition to a bedroom" while a silver-and-gold-leaf Currey & Company chandelier "would work well in a foyer."
