Joanne Rodríguez, ALLIED ASID

This guest bedroom was a dream come true. The perfect mix of decisive client, reasonable deadline and agreeable budget made its success inevitable. The goal was a peaceful, gender-neutral bedroom, luxuriously appointed, comfortable enough for a range of guests. We selected the bold, blue wall color first, adding furnishings, textiles and accessories. The headboard on the king-sized bed was upholstered in an outdoor fabric for easy maintenance. We created contrast using a fairly neutral palette for the bedding, drapes and upholstery while featuring large prints in small doses on accent pillows.
